

Sharing Presentations via the Conference App

Slides can only be viewed in the app by attendees of the conference or those with access to the app. If you would like to share the presentation slides with someone, please download the presentation slide file from the main schedule online using the instructions below.

Downloading Slides from the Public Health Informatics Conference Website to your Computer

In order to view presentation slides, you must be logged into the online scheduler.

Home Page Settings **Login**

Sessions > Welcome to the **2018 Public Health Informatics Conference** event scheduler.

Poster & ePosters >

- Search or browse for sessions and activities using the options on the left.
- Review descriptions and presenters by clicking on session titles.
- Use 'My Itinerary' to build a personalized list of your preferred PHI sessions and activities.*

My Itinerary
Login required

*Please note that using the 'My Itinerary' feature requires an account. You will be prompted to create an account when saving your agenda. This account will be separate from your registration login, but will be the same that you use to access the app that will be available for use during the Summit.

**Adding a workshop that requires pre-registration to your favorites or online plan does not register you for that event. Contact the registration department at InformaticsRegistration@naccho.org or 202-507-4245.

To view presentations online you must first log in using your access key. If you do not have an access key, create an account by clicking "Save my Plan" or use the 'forgot password' link under "Login." If you have downloaded the 2018 Informatics app, your access key was emailed to you. *Note that only presentations that presenters have chosen to share are available.

All Days Sun, Aug 19 Mon, Aug 20 **Tue, Aug 21** Wed, Aug 22 Thu, Aug 23
